

Milestone Specification

- Upon making a mistake, warning given once; (unless it's major)
- Lose marks subsequent times
- Use word to implement bookmarks
- Read milestone specification
- Provide evidence of what you did
 - "As evidence of _____, here are the _____"
- Individual report should be about two pages (plus toggle report)
- Group report could be longer
 - Around ~~four~~^{to two to four} pages without SRS;
 - With SRS, much longer
- SRS isn't going to be complete;
- However, a serious attempt is around four pages
- A final SRS, anywhere between 20 to 40 pages
- Don't want lots of discussion
- Want links to evidence, and;
- Minimum time spent on paperwork;

- Maximum time doing what needs to be done; atm:
 - Discussing with each other
 - ~~Rese~~ Researching
 - Communicating with client
- If unsure how to evidence something, talk to supervisor before starting
- Evidence must haves:
 1. Evidence you did go what you were assigned to do
 2. Evidence that thing you did was done correctly
 3. Evidence that thing is complete
- Evidence must haves example:
 - "Researching about sheep-farming AI"
 - Make notes as you go about researching
 - Present those findings in a group meeting
 - Evidence?
 1. Link to those notes
 2. Links to resources you used to make those notes (put these in the notes and not the report)
 3. Link to the minutes of the group meeting where you presented these findings
 - In future, think thoroughly about how you're going to evidence a task before starting it
